Case No. 4:20-CV-05640-YGR-TSH

**DECLARATION OF ANDREW ROPE
IN SUPPORT OF SEALING PORTIONS
PROPOSED TRIAL EXHIBITS**

The Honorable Yvonne Gonzalez Rogers

Trial: May 3, 2021

1 I, Andrew Rope, declare as follows:

2 1. I am currently a Senior Legal Project Manager for non-party Google, LLC. I have
3 been employed by Google since February 2018 and have held my current position since July
4 2019. Over the course of my employment at Google, I have acquired personal knowledge of
5 Google's practices and procedures concerning the maintenance of the confidentiality of its
6 strategic, business, and marketing information.

7 2. I submit this declaration in support of sealing portions of certain documents
8 produced by Google pursuant to a third-party subpoena that Apple Inc. has indicated it intends to
9 introduce at the trial of this matter, and one document produced by Apple that contains
10 confidential Google information which Apple has indicated Epic Games intends to introduce at
11 the trial.

12 3. The contents of this declaration are true and correct to the best of my knowledge,
13 information and belief, and are based on my personal knowledge of Google's policies and
14 practices as they relate to the treatment of confidential information, the materials that were
15 provided to me and reviewed by me, or conversations with other knowledgeable employees of
16 Google. If called upon as a witness in this action, I could and would testify competently thereto.

17 4. Google follows a strict practice that requires confidential treatment of all internal
18 business analyses of consumer spending and revenue, market conditions and opportunities, future
19 strategic business plans, security risks, and potential growth opportunities. In my experience and
20 to the best of my knowledge, Google does not disclose internal documents of this nature outside
21 of the company.

22 5. The disclosure of Google's confidential internal business analyses, pricing and
23 valuation analyses, strategies and decision-making plans could significantly harm Google's
24 relationships and ability to conduct business with counterparties and prospective counterparties,
25 and could place it at a disadvantage with competitors who could use Google's confidential
26 analyses to their advantage in competition with Google. These materials therefore have economic
27 value from not being generally known to Google's competitors, counterparties, or the general
28 public.

6. To the best of my knowledge, the following information in the trial exhibits proposed by Apple and Epic, which are confidential materials Google produced in response to a third-party subpoena and one document produced by Apple that contains confidential Google information, contain sensitive and confidential Google information that Google has both good cause and compelling reasons to seal.

SPECIFIC PROPOSED TRIAL EXHIBITS
